## Series 5™ Stackable Folding Chairs

The McCourt Series 5 is the only chair of its kind completely produced in the United States. We use only U.S. steel, plastic, components and craftsmanship to manufacture this classic chair.

- Made in the USA - ensures consistent quality as well as excellent customer service before and after the sale
- Series 5 constructed of HSLA (High Strength Low Alloy) tempered U.S. steel provides light weight without compromising strength
- Small details make a big difference: custom designed high strength rivets, not screws; taper crimped braces; drain holes for a dry seat and optional hot stamp I.D.

Specifications Page 22

## Series A5™ Stackable Folding Chairs

*New Aluminum  
Series A5!*

Our Series A5 is the only aluminum polyfold chair completely produced in the United States. We use only U.S. aluminum, plastic, components and craftsmanship to manufacture this light weight chair.

- Made in the USA - ensures consistent quality, superb customer service, and a variety of options.
- Series A5 constructed of aluminum and stainless steel for rust free performance.
- Custom designed high strength rivets, not screws; taper crimped braces; drain holes for a dry seat and optional hot stamp I.D.

*McCourt Exclusive!*

## Gala Series™ Resin Folding Chairs

Beautiful, lightweight design offers classic style and easy installation.

- Heavy duty construction prevents rear legs from bends or breaks
- UV stabilized polypropylene
- Replaceable padded seat
- Indoor and outdoor use

## Gala Series Garden™ Resin Folding Chairs

Same high quality and strength of the Gala Series™, but with a slatted seat for enhanced outdoor use.

- UV stabilized polypropylene
- Slatted seat and upscale design make it perfect for use in outdoor events and patio areas.

## Chiavari Aluminum Stack Chairs

A reliable chair for high profile events and elegant functions. Light weight aluminum construction offers extreme strength and virtually maintenance free years of service.

- 100% welded aluminum construction, no assembly required
- Holds 1000 lbs static weight
- Stacks 6 high
- Waterproof, will not crack, warp or split like wooden chairs
- Baked on powder coat finished in 5 popular colors

Exclusively distributed by

# Auditorium

Stack Chairs

Vinyl and Custom fabrics  
Made In USA

The McCourt Auditorium chair is perfect for churches, waiting rooms and any area where comfortable seating is desired. This chair is constructed for maximum strength - suitable for bariatric use.

- Welded frame of mandrel bent square steel tubing and load tested to over 1500 lbs
- 20" wide chairs features a 2.75" seat cushion and padded lumbar support in back rest
- Standard features include ganging clips for seamless bench-like seating and rear access book rack.

# Bariatric Auditorium

Stack Chairs

The McCourt Bariatric Auditorium chair is excellent for waiting rooms, classrooms and conference rooms. It is constructed for maximum strength and features an extra wide 22" width.

- Welded frame of mandrel bent square steel tubing and load tested to over 1500 lbs
- Seat cushion is 2.75" thick and back offers padded lumbar support
- Ganging clips provide auditorium style seating.

## Superb Banquet

Able to hold over 1500 pounds in static weight, this chair offers strength and elegance in convention centers, banquet halls, restaurants, meeting rooms and hotels.

- High crown back is stylish while providing a handle for easy transport
- Welded frame with Silvervein powder coat finish for extreme commercial use
- Double stitched seat perimeter provides durability
- Polyolefin fabric is strong, color fast and resistant to stains and odors

## Chair EVENTrux™

Make moving, set-up, tear-down and storage of your chairs easy. Heavy duty construction provides years of service in the daily use of event rental, convention center and hospitality industries.

- Large wheels and casters provide greater mobility
- Wide selection to offer the most effective storage and mobility for your application
- Made in the USA with high quality materials, craftsmanship and customer service

## Commercialite®

### Folding Tables

*McCourt  
Exclusive!*

Our industrial strength plastic folding table is one of the strongest, lightest, most affordable indoor / outdoor folding tables on the market! Made in the U.S.A!

- Easy to clean polyethylene plastic top is stain, heat, and impact resistant as well as UV inhibited for outdoor use
- Blow molded tops are hermetically sealed against biological contamination and meet BIFMA standards
- Heavy duty leg assembly supports over 3500 pounds and is bolted through the table top to provide the strength needed for the rough handling of industrial use
- Accepts 3/4" skirting clips

## Laminate

### Folding Tables

Our Laminate tables offer a linen free look construction for long use in high demand situations like classroom and banquet settings.

- Six standard Wilsonart® Laminate choices with other laminates available.
- Standard wishbone style folding legs with detent leg lock, "H" style folding leg standard on 18" wide tables
- Optional leg styles include
  - Roman Style
  - "L" Style

## ProRent™ Plywood Folding Tables

Our ProRent™ 3/4" plywood tables are built with the best materials available and feature all the options the industry requires:

- Bolt-Through construction
- Vinyl Bull Nose edging standard
- Aluminum SuperEdge for maximum durability available
- Specialty Shapes and Sizes upon request
- **Exclusive SuperCorner!** Replace vulnerable corners with our exclusive SuperCorner insert. Transforms rectangle tables into stronger and longer lasting tables!

Specifications Page 27

## ProSlim™ Plywood Folding Tables

Our ProSlim™ 5/8" plywood tables offer a slim profile for extra storage space. Constructed for outstanding toughness and durability in the hospitality and event market:

- Aluminum SuperEdge standard
- Bolt-Through construction
- Wishbone folding legs with detent leg lock
- Specialty Shapes and Sizes upon request

# Ovation™

## Portable Dance Floor

*McCourt  
Exclusive!*

Dance Floor Truck

Precision construction combines beautiful premium flooring with the easy Cam-Lock system for a luxurious, durable and safe indoor/outdoor floor.

- Easy to handle 3'x3' sections are constructed of luxury flooring 3/4" over plywood core.
- Available in Light Oak, Windsor Oak vinyl, and Black or White laminate.
- Back is sealed using nonskid GatorBack™ coating.
- Ribbed aluminum edging features 11 degree slope for no slip easy access.
- All pieces fasten securely with the Cam-Lock system.

# Product Specifications

## Series 5™ and A5™ Stackable Chair

### Frame

**Series 5** - .75" dia. x .038" thick wall in HSLA (High Strength Low Alloy) tubing, the industry leader in light weight and high strength chair frame work. All tubing is rolled on the foot end for durability. Braces of .625" x .023" thick cold rolled tubing precision bent and crimped with proprietary ends to prevent moisture entrapment in joints. Back brace comes standard with bottom drain holes. Rivets are semi-tubular, zinc plated. Brace and back rivets are 3/16" diameter, all others are 1/4". Seat retaining plate is .038" thick CRCQ steel.

**Series A5** - .76" dia. x .084" anodized aluminum tubing for even lighter weight and greater rust resistance. High strength cross braces of .625" dia x .049" thick tubing. All rivets, buttons, seat clips and seat plate are stainless steel.

### Seat & Back

100% Virgin Polypropylene with color blended throughout formulated with anti-static and ultra violet additives. Feet are Linear Low Density Polyethylene for high strength and foot retention.

### Powder Coating and Pre-Treatment

**Series 5** - Tubing is pretreated in a 5 stage industrial cleaning treatment for enhanced corrosion resistance and maximum molecular bonding of the powder coating. Baked-on polyester powder coating has outstanding toughness, excellent weathering

properties and a smooth, glossy appearance. For chrome frames, all parts are chromed before assembly with a 4 stage cleaning process then are duplex nickel plated, chrome plated and double rinsed.

### Testing and Specifications

Random lot testing of production chairs to failure by calibrated load versus deflection. Series 5 chairs test to load bearing capacity of 1000# and are BIFMA™ Certified.

### Weight

**Series 5** - 6.5 lbs. Ships in 70 lb 10 pack or 710 lb 100 pack on pallets.

**Series A5** - 5.5 lbs. Ships in 57 lb 10 pack or 580 lb 100 pack on pallets.

### FanBack Style

Available in Black/Black or White/White. Other color combinations available with minimum order.

### Guarantee

**The Series 5 and Series A5 are manufactured in the USA with U.S. components and craftsmanship.**

Full 3 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

## Gala Series™ and Gala Series Garden™

### Construction

The Gala Series™ Chair is made from 100% polypropylene resin. This virgin material is UV stabilized for weatherproofing and to prevent fading. The zinc-coated screws used in construction prevent rust and go all the way through the legs for better support. Two seat bars carry the seat load, not the screws. The padded, upholstered foam seat snaps in and out easily with sturdy clips made into the seat. Interlocking features allow for better stacking, allowing up to 30 chairs to be stacked on a dolly.

**Load Testing:** Load tested by SGS Laboratories to over 1000 lbs.

### Weight & Dimensions

Each chair weighs 9.95 pounds. Carton of 4: 39.8 lbs  
Open: 30.5" H x 17.5" W x 18.5" D  
Seat: 18" H x 15.5" W x 14" D  
Flat: 34.5" H x 17.5" W x 2.5" D

### Colors

Gala Series™ and Gala Series Garden™ available in white. Gala Series™ also available in black.

### Guarantee

1 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

# Auditorium and Bariatric Chair

## Main Frame

Constructed of 18 gauge 1" square steel tubing. Braces are 3/4" square tubing. Frame is mandrel bent and welded at two points each side. Storage rack underneath is 1/8" wire welded on 1 3/4" centers with holder for small sacramental glasses. Ganging clips of 1/4" gauge wire provides easy chair to chair attachment. Frame is finished in baked on powder coat for extreme commercial use.

## Cushion Platforms

Seat and back platforms are 3/8" hardwood plywood to which upholstery is stapled. Each platform is fastened to the frame with four #10 screws. Back platform is tapered at the waist to allow stacking without upholstery wear.

## Padding and Upholstery

Seat padding is comprised of 2 3/4" virgin polyurethane base pad with a foam density of 1.6 lb/cf. Back padding is 1 1/2" virgin polyurethane foam sculpted with 1 1/4" lumbar pad.

Fabric upholstery is a backed, heavy-hand Polyolefin fiber which is stapled to padded platforms. Polyolefin fabric is strong, color fast and resistant to stains and odors.

Vinyl upholstery is a superior leather alternative which is strong, durable and mildew resistant.

## Chair Glides and Stacking Buttons

Glides are injection molded polyethylene with half circle profile. Stacking buttons allow stacking up to 8 high with no marring.

## Weight and Dimensions

20" Wide Seat - Chair weighs 18.5 pounds. 22" Wide Seat - Chair weighs 19.5 pounds. Can be stacked 8 high safely for storage.

## Guarantee

Full 3 year warranty against upholstery seam failures and frame damage due to materials and workmanship under normal use. Fabric tears and stains not covered. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

## Color

Standard upholstery colors are Charcoal, Navy Blue, Forest Green, Burgundy, Grape, Purple and Beige on custom fabrics and vinyl available. Frame is silvervein powder coat finish for extreme commercial application.

# Commercialite® Table

## Table Top

Blow molded table top of polyethylene plastic formulated for minimal fade or thermal stress cracking (indoor storage recommended). Average thickness to be .140". Table edge is 7/8" to accept standard skirting clips. Round tables made of two half circle parts permanently bonded together. Top is attached to main frame with bolts and nylon nuts to provide extreme durability.

## Main Frame and Leg Assembly

Main frame constructed of U.S. steel: rails of 14 gauge rolled steel, legs of 16 gauge 1" steel tubing and braces of 11 gauge stamped steel. Legs permanently swaged into rails to ensure no separation during rough handling. Glides are non-marring inserts. Wishbone style legs on all but 4' and 5' rectangle tables which feature "H" style legs. Adjustable height and 23" child height legs available on certain sizes.

## Pre-Paint Treatment and Powder Coating

Frame and legs are pretreated for rust resistance and paint adhesion. Baked on polyester powder coat finished.

## Color

Gray tops with black powder coat frame and legs.

## Guarantee

Full 2 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

# ProRent™ Plywood Pedestal Table

## Tabletop

3/4" commercial grade plywood precision formed, drilled and stained a medium oak color. PolyCoat finished with 3 mils on top and 1.5 mil on bottom surfaces. Edge is T-style black vinyl molding.

## Mounting Cap

Cap of cast aluminum mounts to underside of table top with three 1 1/4" elevator bolts and nylon nuts. Center hole accepts standard tapered column.

## Base

Base is 4 prong style, cast aluminum with metal glide inserts. Underside is painted satin black with polished aluminum top surface. 24" base used for 24" & 30" dia. tops. 28" base used for 36" dia. tops. Center hole accepts standard tapered column.

## Column

Columns 16 gauge 1 3/4" dia. welded steel tubing nickel-chrome plated with standard tapers at both ends. Columns give standard heights of 30" and 42" with 3/4" table top thickness.

## Options

**Telescopic Column** gives table heights of 30", 36" and 42" from a single column. Height adjustment is button operation, secures with locking bolt.

**Aluminum SuperEdge** - smooth wrap around T-style edging for superior edge protection.

**Trumpet Base** of 20" & 24" Diameter

**Black Finish** - All bases and columns available in black finish.

## Guarantee

Full 2 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

# Spring Lock Square Leg Laminate Table

## Laminate Table Top

3/4" commercial grade plywood core with Wilsonart® high pressure laminate top surface and backer sheet. Six stock laminate choices, other options available upon request. Edging is T-style black vinyl molding.

## Main Frame and Leg System

Frame constructed of U.S. steel. Rails are formed of 14 gauge steel and fitted to ABS plastic corners. Spring Lock folding legs of 1.5" square steel tubing. Legs are capped with non-marring insert style glides. Frame and legs are pretreated for rust resistance and paint adhesion. The legs have a black powder coat finish.

Spring Lock

Legs and Frame are secured to the tabletop with rigid brackets and 5/8" washer screws. Tension spring provides positive locking in the open position. Legs lock in the closed position with clamshell locking unit.

## Options

**Modesty Panel** - 12" wide with the same construction as the table top. Folds for storage. Available only on rectangle tables.

## Guarantee

Full 2 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.

**Ovation™ Portable Dance Floor**

**Panels**

Each panel is 3'x3' and has two tongue and two groove panel trim edges imbedded into the sides and precisely squared. All panels are exactly the same and interchangeable for fast, easy floor assembly.

**Core** - 3/4" solid plywood.

**Surface** - Premium luxury vinyl is bonded to core with environmentally compatible commercial grade adhesive. Vinyl surface is maintenance free and easy to clean.

**Backing** - Panel backs are spray sealed with GatorBack™ coating providing traction and moisture resistance for protection against slippage and outdoor elements.

**Trim**- Anodized extruded aluminum is precision formed and perfectly squared when assembled to core.

**Perimeter Trim**

Anodized extruded aluminum precision formed to fit Panel trim. The 4.25" wide perimeter is ribbed and features an 11° slope allowing safe and easy access to floor surface.

**Cam-Lock**

Constructed into each panel and tongue perimeter trim are Cam-Locks. The provided T-handle hex key wrench will be used to lock and unlock the panels and perimeter trim together.

**Options**

Standard finish in Windsor Oak or Light Oak vinyl. Black or White Laminate and other color options available upon request.

Ovation™ Portable Dance Floor Transport Truck. Holds 24 3'x3' panels and perimeter trim.

**Guarantee**

Full 2 year limited warranty against manufacturing defects under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.
